

↑ Align top of page to top edge of diaper

Left Tab Edge

Right Tab Edge

Directions for snap conversion: (print template actual size, measure inch box for reference)

1. Cut Tab templates by aligning tab edges and horizontal center lines, tracing tab and cutting out.
2. Mark hole spacing on tabs by poking through template & tabs or by using a fabric pen to mark through pre-punched holes
3. Using a snap press or pliers, apply studs(inner) and caps(outer) to diaper tabs.
4. Align top of page and center line to top and center of diaper
5. Mark hole spacing on diaper by poking through template& diaper or using a fabric pen to mark through pre-punched holes
6. Using a snap press or pliers add Socket snaps to front of diaper through PUL & lining layer, being careful NOT to go through inner tummy panel,
7. Enjoy your new adjustable snap diaper!
